

IABC Regina Website Design Project Apr 12 Customer Notes

The Mandalorians - ENSE 271 Winter 2021

Nolan Flegel, Roxanne Harrison, Jacob Sauer

Feedback

- Generally appreciated the simplicity of our design
- The Board Members section of the About Us page could be condensed
 - Not every visitor wants to read the Board members' bios
 - Suggested accordions with expand / collapse toggles
- Replacing the hyperlinks on the Careers page with company logos was a good design choice
- Separating events into three sections was a good choice
- Would need to test membership external links, which could be confusing
- Suggested inclusion of search functionality on the home page
- No comments or concerns regarding colour schemes / themes or the structure of the home page
 - We followed their suggestions from the Activity #3 presentation
- Didn't seem too concerned with the Wordpress design being less impressive than the Adobe XD prototypes

How did this feedback guide our group

- Explore ways of adding search functionality to the home page
- No security or captcha implemented
 - *Note: Captcha is a built-in feature of WPForms and could easily be added*
- No payment methods implemented
 - Redirect may be good for this
